SORG Modular Training Series

Pathology, Head & Neck Reconstruction

History:

In 1989, twenty surgeons came together in Strasbourg to study and promote the use of rigid fixation techniques. The organization they formed became known as the Strasbourg Osteosynthesis Research Group, or SORG. The society has grown internationally, and in 2007, the North American SORG was founded.

Goals:

- Strengthen the discipline of surgery through education and research.
- Provide educational content that meets the needs of the training program, resident, and private practitioner.
- Facilitate relationships between teaching programs, private practitioners, sub-specialty experts, and technical experts to improve patient care.

Modular Training Series

The Modular Training Series is designed to improve and maintain the skills of the Oral & Maxillofacial Surgeon in a series of weekend courses.

The modules are divided into four categories with training events held nationally twice per year.

1 Pathology, Head & Neck Reconstruction
March 3 - 5, 2017 · JW Marriott Buckhead · Atlanta, GA

2 Congenital & Developmental Deformities
Fall 2017

3 Anesthesia, Preprosthetic & Dental Implants
Spring 2018

4 Trauma, TMJ & Cosmetic Surgery
Fall 2018

SORG Modular Training Series

Pathology, Head & Neck Reconstruction

Purpose:

Module 1 focuses on principles of clinical pathology and reconstruction of the head and neck region. The course is designed to assist the surgical professional with the diagnostic tools and surgical approaches in the comprehensive management of patients.

Learning Objectives:

At the conclusion of the course the participant will be able to:

- Apply critical thinking pathways in the differential diagnosis of lesions in the oral and maxillofacial region.
- Describe the diagnosis, epidemiology and management of oral cancer.
- Review and identify different approaches to head and neck reconstruction.
- Improve the understanding of microsurgical techniques and free flap selection.
- Discuss the indication for bone grafts and bone flaps in critical size defects.

Pathology, Head & Neck Reconstruction

Board Advisor

Dale A. Baur, DDS

Associate Professor and Chair
Department of Oral and Maxillofacial Surgery
Associate Dean for Graduate Studies
Case Western Reserve University School of Dental Medicine
Division Chief
Oral and Maxillofacial Surgery
University Hospitals of Cleveland
Board Member, SORG North America

Course Director

Jon Holmes, DMD, MD, FACS

Clark Holmes Oral and Facial Surgery of Alabama
Adjunct Clinical Professor
Department of Oral and Maxillofacial Surgery
University of Alabama at Birmingham
Reconstruction Section Chair, SORG North America

Faculty

Shelly Abramowicz, MD, DMD, MPH

Assistant Professor
Division of Oral and Maxillofacial Surgery
Emory University
Director
Oral and Maxillofacial Surgery Outpatient
Grady Memorial Hospital
Associate Chief
Oral and Maxillofacial Surgery
Children's Healthcare of Atlanta

Kevin Arce, DMD, MD, MCR

Senior Associate Consultant, Department of Surgery
Division of Oral and Maxillofacial Surgery
Mayo Clinic, Rochester, MN

Eric R. Carlson, DMD, MD, FACS

Professor and Chairman
Residency Program Director
Department of Oral and Maxillofacial Surgery
Director of Oral/Head and Neck Oncologic Surgery
Fellowship Program
University of Tennessee Medical Center
University of Tennessee Cancer Institute

Membership Director, SORG North America

Eric Dierks, MD, DMD, FACS, FACD

Director of Fellowship in Head and Neck Oncologic
and Microvascular Reconstructive Surgery
Head and Neck Surgical Associates
Affiliate Professor of Oral and Maxillofacial Surgery
Oregon Health and Science University
University of Washington

Chairman, SORG North America

Pathology, Head & Neck Reconstruction

Faculty

Rui Fernandes, DMD, MD, FACS

Associate Professor, Department of OMFS
Division of Head and Neck Surgery
Associate Chair, Department of Oral and Maxillofacial Surgery
Chief, Division of Head and Neck Surgery
Program Director, Head and Neck Oncologic Surgery and
Microvascular Fellowship
University of Florida Health Science Center, Jacksonville

Joseph Helman, DMD

C. J. Lyons Endowed Professor
Department of Oral and Maxillofacial Surgery
University of Michigan
Board Member, SORG North America

D. David Kim, DMD, MD, FACS

Associate Professor
Edward and Freda Green Endowed Professor
Chief
Division of Head and Neck Oncology and Reconstructive Surgery
Department of Oral and Maxillofacial/Head and Neck Surgery
LSU Health Science Center Shreveport

Kelly Magliocca DDS, MPH

Assistant Professor
Department of Pathology and Laboratory Medicine
Emory University

Anthony B. Morlandt, MD, DDS

Assistant Professor
Department of Oral and Maxillofacial Surgery
University of Alabama at Birmingham

Faculty

Steven M. Roser, DMD, MD

Delos Hill Chair and Professor of Oral and Maxillofacial Surgery
Chief, Division of Oral and Maxillofacial Surgery
Emory University School of Medicine

James Sciubba, DMD, PhD

Professor (Ret.)
The Johns Hopkins School of Medicine
The Milton J. Dance Head & Neck Center
The Greater Baltimore Medical Center

Brent Ward, DDS, MD

Section Head
Oral and Maxillofacial Surgery
Associate Professor
Oral and Maxillofacial Surgery
Director
Oral/Head and Neck Oncology
Microvascular Reconstructive Surgery
Fellowship Program
University of Michigan

Director
Division of Maxillofacial Oncology and Reconstructive Surgery
Department of Oral and Maxillofacial Surgery
John Peter Smith Health Network

SORG Modular Training Series

Pathology, Head & Neck Reconstruction

Program

Friday, March 3, 2017

12:30 pm – 12:45 pm	Welcome	J. Holmes/E. Dierks
12:45 pm – 1:30 pm	Benign Pediatric Pathology	S. Abramowicz
1:30 pm – 2:15 pm	The Art of Differential Diagnosis	J. Sciubba
2:15 pm – 2:30 pm	Break	
2:30 pm – 3:15 pm	Overview of Benign Pathology of the Jaws	J. Sciubba
3:15 pm – 4:15 pm	Management Principles of Benign Pathology of the Jaws	K. Arce
4:15 pm – 4:30 pm	Break	
4:30 pm – 5:30 pm	Evaluation of Margin Status and Management of Pre-malignant Lesions	K. Magliocca
5:30 pm – 6:30 pm	Oral Cancer: Diagnosis and Work-up	B. Ward
6:45 pm – 7:45 pm	Reception	

Saturday, March 4, 2017

7:00 am – 7:45 am	Continental Breakfast	
7:45 am – 8:30 am	Oral cancer: Management of the Neck	E. Carlson
8:30 am – 9:15 am	Medication Related Osteonecrosis	E. Carlson
9:15 am – 10:00 am	Osteoradionecrosis	S. Roser
10:00 am – 10:15 am	Break	
10:15 am – 11:00 am	Soft Tissue Reconstruction: Local Flaps	B. Ward
11:00 am – 12:00 pm	Minor Salivary Gland Tumors: Principles of Management	D. Baur
12:00 pm – 1:00 pm	Lunch	

Program

Saturday, March 4, 2017 cont.

1:00 pm – 1:30 pm	Soft Tissue Reconstruction: The Pectoralis Major Flap	D. Baur
1:30 pm – 2:30 pm	Soft and Hard Tissue Reconstruction: Free Flaps	A. Morlandt
2:30 pm – 3:15 pm	Maxillary Defect Classification and Reconstruction	D. Kim
3:15 pm – 3:30 pm	Break	
3:30 pm – 4:15 pm	Principles of Management of Cutaneous Malignancies	F. Williams
4:15 pm – 4:45 pm	Ablative and Reconstructive Surgery of the Lips	F. Williams
4:45 pm – 5:30 pm	Buccal Flap and Tongue Flap	E. Dierks
5:30 pm – 6:00 pm	Virtual Surgical Planning	S. Roser
7:30 pm – 9:00 pm	Group Dinner	

Sunday, March 5, 2017

7:00 am – 8:00 am	Continental Breakfast	
8:00 am – 9:00 am	Surgical Access for Tumor Management	R. Fernandes
9:00 am – 10:00 am	Soft Tissue Reconstruction: Regional Flaps	J. Helman
10:00 am – 10:15 am	Break	
10:15 am – 11:15 am	Major Salivary Gland Tumors: Principles of Management	R. Fernandes
11:15 am – 12:15 pm	Oral Cancer: Management of the Primary Site	J. Holmes
12:30 pm	Adjournment

SORG Modular Training Series

Pathology, Head & Neck Reconstruction

Upcoming Hands-On SORG MasterCourse

Customized Facial Implants and 3-Dimensional Surgical Planning

Purpose:

The integration of research evidence and clinical expertise is improving the standard of care for orthognathic surgery, facial trauma, head and neck reconstruction and correction of facial deformities. Currently, surgeons are relying on experience of anatomical structures, patient images, dental impressions and mechanical measurements to restore bony symmetry and function of the bony structures. Rather than visually analyzing CT images, newer technologies allow the maxillofacial surgeon to plan and execute surgical steps with efficiency and improved outcomes. Computer based planning and simulation, along with three dimensional design capabilities, provides greater precision and customization for patients. Faculty will address the perioperative aspects of managing the CMF patient, including clinical algorithms and the appropriate use of advanced software and technologies.

Course Director

David B. Powers, MD, DMD, FACS, FRCS (Ed)

Director

Craniomaxillofacial Trauma Program

Associate Professor of Surgery

Division of Plastic, Reconstructive,

Maxillofacial and Oral Surgery

Duke University Medical Center
