# SORG Modular Training Series

## Congenital & Developmental Deformities

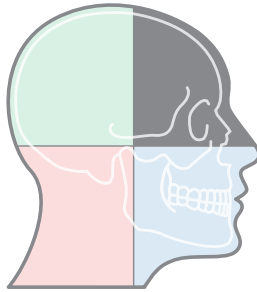

### History

In 1989, twenty surgeons came together in Strasbourg to study and promote the use of rigid fixation techniques. The organization they formed became known as the Strasbourg Osteosynthesis Research Group, or SORG. The society has grown internationally, and in 2007, the North American SORG was founded.

### Goals

- Strengthen the discipline of surgery through education and research.
- Provide educational content that meets the needs of the training program, resident, and private practitioner.
- Facilitate relationships between teaching programs, private practitioners, sub-specialty experts, and technical experts to improve patient care.

## Modular Training Series

The Modular Training Series is designed to improve and maintain the skills of the Oral & Maxillofacial Surgeon in a series of weekend courses.

The modules are divided into four categories with training events held nationally twice per year.

### **1** Pathology, Head & Neck Reconstruction

*March 3 - 5, 2017 · JW Marriott Buckhead · Atlanta, GA*

*September 8 - 10, 2017 · New York University · New York, NY*

### **2** Congenital & Developmental Deformities

*November 3 - 5, 2017 · University of Cincinnati · Cincinnati, OH*

### **3** Anesthesia, Preprosthetic & Dental Implants

*Spring 2018*

### **4** Trauma, TMJ & Cosmetic Surgery

*Fall 2018*

# SORG Modular Training Series

## Congenital & Developmental Deformities

### Purpose

Module 2 focuses on principles of clinical treatment of congenital and developmental deformities in the pediatric and adult patient. The course is designed to give the participant a greater awareness of the range of anatomical challenges, as well as an outline of planning and treatment options.

### Learning Objectives

**At the conclusion of the course the participant will be able to:**

- Identify types and causes of soft and hard tissue deformities in the craniomaxillofacial anatomy.
- Describe the diagnosis, options, and long term goals in treatment, including use of CT based and traditional planning options.
- Review and identify different approaches for achieving tissue, bone and dentition function and symmetry within the resources of the surgeon, orthodontist, and specialists.
- Discuss new options in surgical technique, as well as new technologies in bone and tissue reconstruction.
- Discuss the complications, causes, and lessons learned with each technique, technology, and treatment plan.

## Board Advisor

### **Vincent J. Perciaccante DDS, FACS**

Adjunct Associate Professor of Surgery  
Division of Oral & Maxillofacial Surgery  
Emory University School of Medicine  
Private Practice  
SouthOMS Oral, Maxillofacial & Aesthetic Surgery  
Board Member, SORG North America

## Course Directors

### **Faisal Quereshey, MD, DDS, FACS**

Associate Professor  
Residency Director  
Oral & Maxillofacial Surgery  
Case Western University  
Medical Director  
Visage Surgical Institute  
Orthognathic Section Chairman, SORG North America

### **Paul S. Tiwana, DDS, MD, MS, FACS**

Reichmann - Staples Professor and Chair  
Department of Oral & Maxillofacial Surgery  
Professor Department of Surgery  
University of Oklahoma HSC Campus  
Craniofacial Section Chairman, SORG North America

## Congenital & Developmental Deformities

### Faculty

#### **Shahid Aziz, DMD, MD, FACS**

Professor  
Department of Oral & Maxillofacial Surgery  
Rutgers University School of Dental Medicine  
Division of Plastic Surgery, Department of Surgery  
Rutgers - New Jersey Medical School  
President, Smile Bangladesh

#### **Stephanie J. Drew, DMD, FACS**

Acting Associate Professor of Surgery  
Division of Oral and Maxillofacial Surgery  
Emory University School of Medicine

#### **Sean Edwards, DDS, MD, FACS**

Clinical Associate Professor  
Director, Oral & Maxillofacial Surgery Residency Program  
University of Michigan  
Chief, Pediatric Maxillofacial Surgery  
C.S. Mott Children's Hospital  
Board Member, SORG North America

#### **Mark Egbert, DDS, FACS**

Associate Professor  
Oral and Maxillofacial Surgery  
University of Washington  
Division Chief  
Pediatric Oral and Maxillofacial Surgery  
Seattle Children's Hospital

#### **Tirbod Fattahi, MD, DDS, FACS**

Associate Professor & Chair  
Department of Oral & Maxillofacial Surgery  
Facial Aesthetic Surgery  
University of Florida Health Science Center, Jacksonville

## Faculty

### **Jon D. Holmes, DMD, MD, FACS**

Clark Holmes Oral and Facial Surgery of Alabama  
 Adjunct Clinical Professor  
 Department of Oral and Maxillofacial Surgery  
 University of Alabama at Birmingham  
 Reconstruction Section Chair, SORG North America

### **Deepak G. Krishnan, DDS, FACS**

Associate Professor of Surgery  
 Residency Program Director  
 Oral & Maxillofacial Surgery  
 University of Cincinnati Medical Center

### **Ramon L. Ruiz, DMD, MD**

Director, Pediatric Craniomaxillofacial Surgery  
 Fellowship Program Director  
 Pediatric Oral & Maxillofacial Surgery  
 Department of Children's Surgery  
 Arnold Palmer Hospital for Children  
 Associate Professor of Surgery  
 University of Central Florida College of Medicine

### **David C. Stanton, DMD, MD, FACS**

Associate Professor  
 Department of Oral & Maxillofacial  
 Surgery/Pharmacology  
 University of Pennsylvania

### **Martin Steed, DDS, FACS**

Associate Professor and Chair  
 Associate Dean for Hospital Affairs  
 College of Dental Medicine  
 Department of Oral & Maxillofacial Surgery  
 Medical University of South Carolina

### **Larry M. Wolford, DMD**

Clinical Professor of Oral and Maxillofacial Surgery and Orthodontics  
 Texas A&M University College of Dentistry  
 Baylor University Medical Center
